

**IN THE CLAIMS**

Please amend the claims as outlined in Appendices A ("mark-up" copy) and B ("clean" copy) enclosed herewith.

**IN THE SPECIFICATION**

*U.S. (pending approval of Sub Spec)*

In response to the Examiner's objection to the specification, please replace pages 1 through 15 of the specification with the corrected specification attached herewith in Appendices C and D. Appendix C is a "marked-up" copy of the specification so that the Examiner may readily identify the grammatical changes that have been made. Appendix D is a "clean" copy of the amended specification. This corrected specification has been generated solely to correct the grammatical errors that were previously present and objected to. The Examiner should note that the corrected specification does not contain new matter within the meaning of 35 U.S.C. §132.

**IN THE DRAWINGS**

In response to the Examiner's objections to Figure 1, a letter to the draftsman is submitted herewith transmitting, subject to the Examiner's approval, a proposed correction, marked in red, to the drawing of Figure 1.
